

A Taste-Full Evening

A taste-full event celebrating our local community

A Taste-Full Evening benefits St. Paul's Center and the women and children empowered through its services

It is because of the support of our local community that we have been able to continue providing and expanding our services to families in need. For this reason, our 2012 tasting celebrates and supports local community enterprises by highlighting vendors from the Capital District and other New York State areas, and giving them the opportunity to sample and sell their locally produced goods to new audiences - allowing worlds to collide in the name of compassion and generosity.
